TRA, Inc. and Airport SMS

Transportation Resource Associates, Inc. (TRA) can assist Airports with Safety Management System (SMS) Compliance.

Founded in 1990, TRA has over twenty years offering safety consulting to transportation providers including large public transportation agencies and port authorities. TRA understands Safety Policy, Safety Risk Management, Safety Assurance, Safety Promotion and Department of Transportation regulators and auditors.

We can assist with:

- SMS Implementation Plans
- Safety Policy and Procedures
- Hazard Assessment and Documentation
- Hazard Mitigation via Corrective Actions
- Training on Safety Policies and Procedures

We know safety policies and plans

We know government transport

IndustrySafe Software and Airport SMS

IndustrySafe Safety Software is a web-based safety management software developed by TRA so organizations can track hazards, incidents, corrective actions, training, claims, inspections, hazards, behavioral based safety, and more. IndustrySafe clients include leaders in manufacturing, construction, government, and transportation, including airports and ground services providers.

IndustrySafe can track, analyze, and notify:

- Hazards and Corrective Actions
- Incident and Accident Recordkeeping
- Safety Communication and Notifications
- Safety Performance Metrics and Dashboards
- Inspections
- Training

Our software is easy to use, powerful, and cost effective.

Up to Date Safety Metrics
